

APPLIED ECONOMICS RESEARCH CENTRE UNIVERSITY OF KARACHI INTERNATIONAL CONFERENCE 2024-25 **CALL FOR PAPERS**

The Applied Economics Research Centre (AERC), University of Karachi is organizing a two day International Conference in Karachi. The main theme is;

“Shaping the Economic Future of the Country: Trends and Insights for Tomorrow” (SEFC-TIT)

It is imperative for the people of Pakistan to be futurists, technologists, and innovators who often think ahead. These visionaries need to shape the future. Many of these professionals have an image of what the future looks like. Even so, most still need to figure out what the future holds. Technology has an immense impact on every facet of our lives. From daily tasks to societal functioning, technology serves as a catalyst for change, and economic development is no exception. Digital Technologies are transforming economies, creating jobs, and improving lives. The AERC international conference (2024-25) aims to highlight the importance of digital technologies as it has dramatically changed communications, business, health, education, finance and more. As we move forward, technology will continue to shape the landscape of economic development, offering fresh prospects for businesses and individuals while introducing new obstacles. This conference would explore the various ways in which transformation is taking place as it changes economic development.

Through interactive sessions, expert panels, and thought-provoking discussions, the conference will explore emerging trends, disruptive technologies, and innovative approaches driving economic growth. Join us as we navigate the path towards a prosperous and inclusive future, uncovering opportunities for sustainable development, fostering resilience, and addressing pressing challenges. We invite researchers to submit their papers and participate in this thought-provoking event. Together, let's create a collective vision for economic prosperity that is both robust and equitable, ensuring a brighter tomorrow for generations to come.

Papers can be submitted under the sub themes listed below:

- ◆ *Emerging Industries: New Income Opportunities and Business Growth*
- ◆ *Harmony in Nature: Cultivating Sustainable Future*
- ◆ *Cities and Communities: Building Resilient Societies*
- ◆ *Social Transformation for Promoting Well-Being*
- ◆ *Sustainable Energy and Climate Change: Green Economy Unleashed*
- ◆ *Financial Inclusivity and Technological Innovation*
- ◆ *Interconnected Economies: Paving the way for Global Prosperity*
- ◆ *Governance and Policy: Shaping the Future of Society*
- ◆ *Beyond Boundaries: Exploring Opportunities in the Blue Economy*
- ◆ *Data Science and Analytics: Insights for Decision-making*
